

# MUSIC CHORDS CHARTS

IN ELM

Christophe Benz – [christophe.benz@jailbreak.paris](mailto:christophe.benz@jailbreak.paris)

# WHAT'S A SONG?

- song = melody + chords
- applies to rock, blues, jazz, folk

# ALREADY SEEN THAT?

# EXAMPLE: JAZZ SONG

ALL OF ME								Repeated bar	Key: C
Part A	C	-	E7	-	A7	-	Dm	-	
Part B	E7	-	Am	-	D7	-	G7	-	
Repeated part A	-	-	-	-	-	-	-	-	
Part C	F	Fm	C	A7	Dm <sup>b5</sup> 7	G7	C	-	

# NOT A MUSIC SCORE

# CHORDS

- a note and a quality

• C

means "C Major"

• Fm

means "F minor"

# BARS

- 1 bar = 4 beats
- 1 to 4 chords per bar

# COMPLEX EXAMPLE

CHEEK

TO CHEEK

(Irving BERLIN - I.B. 1934)

# CHART TO STRING

Using pattern matching

```
barToString : Bar -> String
barToString bar =
  case bar of
    Bar chords ->
      chords
        |> List.map Chord.toString
        |> String.join "/"

    BarRepeat ->
      "_"
```

# STRING TO CHART

Using elm-tools/parser

```
chart : Parser Chart
chart =
  succeed Chart
    |. spacesAndNewlines
    |. symbol "title:"
    |. spaces
    |= keepUntilEndOfLine
    |. newLine
    |. symbol "key:"
    |. spaces
    |= note
    |. spacesAndNewlines
    |= repeat oneOrMore (part |. spacesAndNewlines)
    |. end
```

# THANK YOU!

- Elm is awesome to model a domain like music
- refactoring is a real pleasure
- <https://open-chords-charts.github.io/chart-editor/>
